

### 03. Field Trip

Do you know what day is a great day? Field trip day! On that day, we go to a place outside our school to learn and see new things! It is so fun!

There are some things we must do before we go. First, we need to hand in our permission forms. Our families sign this form to say we can go on the field trip. If we do not hand it in, then we can't go.

The next step is to make sure we have everything we need for our trip. We need our health card, a water bottle, a jacket, and maybe a hat or an umbrella. Also, don't forget to bring some money.

Now we are ready to go! We can travel by bike, by bus, by car, or by train. If we ride our bikes, our teachers make sure we stay together and ride safely. If we take a bus, we need to learn what to do in an emergency! Sometimes we only watch a video about how to get out of the bus. Sometimes we practice getting out of the bus safely. If we go by car, we get into groups and take different cars. If we take a train, our school buys the tickets for us. Then, we can all ride together.

There is another thing we must remember: the buddy system. We use the buddy system on field trips to make sure no one gets lost. We have to choose a classmate and go everywhere with that person. Stay with that buddy. Even at lunchtime, never leave that buddy.

We can see many interesting things on our field trip! We can do a DIY project, take a lot of pictures, or buy snacks and things at gift shops.

We get back on the bus with our buddy and go back to school. It is a long day, but we learn a lot and see so many things! Field trips are special days. I can't wait for my next field trip!
